

Part Time / After Hours Electrical Training

Date: 5 Feb 2020

We at EE SERVICES are launching a new project to assist students that are working full time but want to further their electrical studies.

We will offer Modular bases classes in the evenings.

Each course is requires 160 notational hours of training.

These hours are spread over 9 weeks Monday to Friday (17:30 – 20:30) including every 3rd Saturday (08:00 – 17:00)

Unfortunately for this project to make any business sense for us we need a minimum of 6 students enrolled before the class can commence.

Should the minimum number of students not enroll the class will be moved to the next available date.
